Press Release

secunet appoints Martin Braun as Vice President Public Authorities

[Essen, Germany, 17 July 2023] **secunet, Germany's leading cybersecurity company, has appointed Martin Braun as Vice President Public Authorities. In this position, he will be responsible for the further growth of the Public Authorities division together with Tilmann Stähler.**

"I am looking forward to the new and exciting task," says Martin Braun. "Together with the team, we will focus on developing products, services and solutions for the fully digitalised public authority. Our ambition is to define digital security in this context. We will also open up our SINA products for the public administration to selected partners and multipliers."

Martin Braun succeeds Norbert Müller, who joined the management of the cloud acquisition SysEleven in the middle of last year. For the past eleven years, Martin Braun worked at CGI Germany, where he most recently held overall responsibility for the Technical Services & Consulting division as Senior Vice President. One of the most important tasks was the regional and supra-regional expansion of customer relationships as well as the management and development of the locations in Erfurt, Leipzig and Dresden. Since the end of 2016, he has developed the business unit with 15 employees at the time into a successful technology business consulting organisation with over 300 employees.

"In Martin Braun, we have been able to attract a successful manager who brings with him both extensive strategic experience in a growing corporate environment and specialist expertise in IT consulting," says Axel Deininger, CEO of secunet Security Networks AG. "We are very pleased that he is now part of the secunet team and are sure that he will make a great contribution to the success of our company."

secunet – Protecting Digital Infrastructures

secunet is Germany's leading cybersecurity company. In an increasingly connected world, the company's combination of products and consulting assures resilient digital infrastructures and the utmost protection for data, applications and digital identities. secunet specialises in areas with unique security requirements – such as cloud, IIoT, eGovernment and eHealth. With security solutions from secunet, companies can maintain the highest security standards in digitisation projects and advance their digital transformation.

Over 1,000 experts strengthen the digital sovereignty of governments, businesses and society. secunet's customers include federal ministries, more than 20 DAX-listed corporations as well as other national and international organisations. The company was established in 1997, is listed in the SDAX and generated revenues of around 347 million euros in 2022.

secunet is an IT security partner to the Federal Republic of Germany and a partner of the German Alliance for Cyber Security.
